DƯƠNG THÀNH NAM

DUT STUDENT

ABOUT ME

Embedded Systems & IoT student who also builds fast, bilingual websites for small businesses. I bring an engineer's habit of testing everything to clean, mobile-friendly pages.

SKILLS

- **Web:** HTML, CSS, Next.js, Tailwind CSS, Git, Vercel (AI-assisted development)
- **Embedded:** C/C++, Arduino, ultrasonic sensors, motor drivers
- **Soft skills:** teamwork, problem-solving, planning

LANGUAGE

- Vietnamese (native)
- English (IELTS candidate)

CONTACT

- dtnam2007bk@gmail.com
- duongthanhnam.vercel.app
- github.com/namduong-dev1809

EDUCATION

University of Science and Technology – The University of Da Nang (DUT) · Sep 2025 – now

Bachelor of Engineering in Embedded Systems and Internet of Things (Advanced Program)

WEB PROJECTS

Noezz Homestay · noezz-homestay.vercel.app
- Bilingual EN/VI 4-page website with a booking form that sends requests by WhatsApp or email.

Noezz Coffee · noezz-coffee.vercel.app
- One-page site with an auto-playing hero slider and a menu filtered by category tabs.

Noezz Spa · noezz-spa.vercel.app
- Landing page whose prices switch between 60 and 90 minutes; "Book this" pre-fills the booking form.

Demo sites for fictional businesses · Next.js, Tailwind CSS · Oct 2026

EXPERIENCE

Autonomous Maze Runner Robot (Nov – Dec 2025)
- Built a self-navigating robot that solves mazes with a wall-following algorithm.
- Refactored the firmware to fix sensor timeout and crosstalk bugs (code on GitHub).

Team Leader / Member – University Projects
- Coordinated an 8-member team to deliver technical reports and major assignments.

ACHIEVEMENTS

- Third Prize, Provincial Physics Competition (Grade 12)
- Fast Cup 2026, DUT football tournament
