DƯƠNG THÀNH NAM

DUT STUDENT

ABOUT ME

Embedded Systems & IoT student who builds fast landing pages for startups, coaches and course creators. I bring an engineer's habit of testing everything to clean, mobile-friendly pages.

SKILLS

- **Web:** HTML, CSS, Next.js, Tailwind CSS, TypeScript, Git, Vercel
- **Embedded:** C/C++, Arduino, ultrasonic sensors, motor drivers
- **Soft skills:** teamwork, problem-solving, planning

LANGUAGE

- Vietnamese (native)
- English (IELTS candidate)

CONTACT

- dtnam2007bk@gmail.com

- github.com/namduong-dev1809

EDUCATION

University of Science and Technology – The University of Da Nang (DUT) · Sep 2025 – now

Bachelor of Engineering in Embedded Systems and Internet of Things (Advanced Program)

WEB PROJECTS

Noezz Notes · noezz-notes.vercel.app
- SaaS landing page with an animated product mock-up built in code and a monthly/yearly pricing switch.

Noezz Caption · noezz-caption.vercel.app
- Product launch page with a working caption generator by tone and platform, plus a waitlist.

Mia Tran – Coach · mia-tran-coach.vercel.app
- Lead magnet page: CSS ebook cover, validated sign-up with thank-you state, live offer countdown.

Demo sites for fictional products · Next.js, TypeScript, Tailwind CSS · Oct 2026

EXPERIENCE

Autonomous Maze Runner Robot (Nov – Dec 2025)
- Built a self-navigating robot that solves mazes with a wall-following algorithm.
- Refactored the firmware to fix sensor timeout and crosstalk bugs (code on GitHub).

Team Leader / Member – University Projects
- Coordinated an 8-member team to deliver technical reports and major assignments.

ACHIEVEMENTS

- Third Prize, Provincial Physics Competition (Grade 12)
- Fast Cup 2026, DUT football tournament
